COMPLETION DATE

December 2013

SIZE

3,806 SF

- Interior renovation of a twenty-nine (29) bed inpatient behavioral health hospital to be located on the campus of an existing residential care facility. The project also includes the addition of two new 1,300 SF wings.
- Work includes new MEP systems, new shingle roofing, repair of foundation settlement and other repairs.
- New floor plan was developed to accommodate a new tenant and depicts all finishes and anti-ligature hardware.
- Site work scope includes new wing additions to residential building and remedial site work surrounding all three buildings.
