COMPLETION DATE

July 2015

SIZE

3,000 SF

- Addition to the Gamma Phi Beta sorority house at U.S.C.
- The expansion included enlarging the chapter room, as well as the addition of a crafting room, an outdoor patio space and an upstairs lounge area.
- When laying the foundation for the expansion, our team encountered unsuitable soil that needed to be excavated and replaced while adhering to a tight schedule.
- This project was completed within a very tight timeline (75 days) on a restricted site.
