1x1 Design, Inc.  
(803) 834-4048

**COMPLETION DATE**

May 2016

**SIZE**

3,055 SF

- A major renovation transformed this 3,055 square foot existing shell space into a premier restaurant.
- Our team worked carefully to contain the noise level and visibility of construction activities. Additionally, the team kept all construction activity to the interior and kept construction vehicles, dumpsters and portalets out of view.
- The existing slab was refinished and stained, offering a unique and eye-catching floor upon entry. Existing ceiling structures, including the bar joists and decking, were left exposed and painted. Multiple hanging cloud soffits near the bar area as well as the drive-thru pick up window were also added as attractive focal points.

- During preconstruction, Mashburn created a schedule and budget that accommodated the Owner's specifications.
